

ServiceTitan pricebook — weekly checklist

Export first. Match by part number and unit. Review what's uncertain. Import in batches you can verify.

- ☐ Fresh pricebook export taken before reading any invoice.
- ☐ All of the week's supplier documents in the inbox, none read twice.
- ☐ Every line matched, proposed or held — none skipped.
- ☐ Units converted; cost deltas over threshold reviewed.
- ☐ New item proposals checked against near-duplicates.
- ☐ Update exported in ServiceTitan's layout and imported.
- ☐ Export + update files kept for the run.
